Doings at the National Capital.

AN ARMY SCHEME EXPOSED.

The Trans-Continental Troubles As Yet Unsettled—A Cashier For Canada.

(Special to the Herald by the Associated Press)

SENATE.
WASHINGTON, April 16.—Mr. Beck offered a resolution, which was agreed to, calling on the Secretary of War to transmit to the Senate the official report of Lieutenant Allen, of the Second Cavalry, of his explorations of certain rivers in Alaska. After executive session the Senate adjourned until Monday.

FALSE PRETENSES.

A Clever Scheme at Last Exposed.

WASHINGTON, April 16.—The War Department has disclosed the following for publication: "The attention of the War Department was called some time since to the pretended operations of an institution located in New York City under the title of the United States Military Post Library Association, the managers of which have been asking aid from benevolent inclined people upon the plea that it had been and still is rendering great moral and religious aid to the enlisted men of the army by supplying them gratuitously with reading matter. In one of these circulars, in which the association claims that during the past year 10,000 copies of periodicals were sent to the army with happy results, it announces that the officers of the association, the President, Secretary of War and other principal army officers of the highest rank and upon this evidence of its high standing and semi-official character obtained quite a number of the enlisted men to all sections of the country. As the war department had no official knowledge of this association, inquiries were made with a view of ascertaining what was being done to help the army by it, and the result of this inquiry shows that out of 133 separate posts which have reported 125 have reported that at no time did they pass on any books, periodicals or books or periodicals or documents received from this association, and to the inquiry whether this institution has ever been of any service to the company, it has unqualifiedly reported "no," while ninety-six have replied that they have no knowledge whatever of the association.

Quarantine officers have spoken of their personal experience with this association in a complimentary tenor. It is learned that the association is the legitimate and bona-fide organization of which a name later will become available, and that this probably explains the fact that while it represents itself as friends, a rank and file of enlisted men composed the association to suspend operations six years ago, it still maintains an organization and headquarters. The facts in regard to the investigation were found to be so much at variance with the representations made by this association that the War Department felt it duty to those whose benevolence had led them to take special interest in this matter to give publicity to the results of its inquiries.

The Railroad War.

SAN FRANCISCO, April 16.—The Bullock's New York special states: "C. P. Huntington has the trans-continental troubles are not over yet. There was no meeting yesterday about the matter. He also said there is no truth in the report that the Pacific mail is being sent by the railroad to the trans-continental interests. Charles F. Crocker, of San Francisco, writes to Vice-President Charles Crocker of the Central and Southern Pacific that cutting of the trans-continental rates will be most beneficial to the company, and the Pacific Coast. He says he is ordering additional rolling stock and if he could get 1,000 box cars immediately, he would have them until far into the winter. Huntington said it appeared now that all the roads intended to let the trouble take care of itself, and that it would not be kept up some time longer. He had received no new propositions of settlement from other lines, and he did not intend his part to be any. A good and feeling indifference as to the time of final settlement exists among the directors.

The Blood-Horse Races.

LONDON, April 16.—At the Newmarket Craven meeting to-day the Newmarket handicap race was won by Lord Hartington's four-year-old Sir Kenneth.

Mr. Hartington's son, a four-year-old King of Monmouth, second, two lengths ahead.

There were ten starters. Betting was fifteen to one against King Kenneth, three to one against King Monmouth, and thirty-three to one against Bellona, Duke of Portland's three-year-old Arcadian was the favorite.

Arrived on a series Charge.

ST. LOUIS, April 16.—Warrants have been issued for the arrest of Martin Irons, Chairman of the Executive Committee of District Assembly 101, A. C. Conaghan, Chairman of the Executive Committee of the Knights of Columbus, and J. Jackson, formerly a prominent Greenback politician, and S. N. Nichols, a telegraph operator, on a charge of felony for interfering with the telegraph wires in St. Louis.

It is reported that they are to have been arrested two weeks ago for the purpose of intercepting dispatches between Jay Gould and Vice President Hoxie.

The Blood-Horse Races.

SAN FRANCISCO, April 16.—The entries in the Blood-Horse races to-morrow are: Extra race, miles and a sixteenth, Neilson, Jou Jon, Leda; Europa stakes, two-year-old, half-mile, C. Bellona, Bellona, Eliza; Consolation, Leap Year, Del Norte, Valtierra, Margarita; Consolation, Patti, Maudie, Estrella; Consolation, John A. Pitti, Lucy B., Valente Consolation, pure, miles, closer after race.

The Apaches.

PORT BOWIE, A. T., April 16.—The statement recently telegraphed from El Paso, Texas, that Crook's Apache scouts had joined Geronimo is denied. It is reported that the Apache scouts had been won over to the side of the Southern and Eastern Apaches, and that Geronimo and his band had been dispersed.

The Payne Investigation.

COLUMBIA, April 16.—The consideration of the report of the Payne investigation committee was adjourned on Friday morning, on the motion to postpone to next Thursday for the purpose of printing evidence. The motion was defeated, as was also that to subdivide minority for majority report.

The majority was by a single vote, and the report was referred to a committee to be considered at a later date.

Mr. Chamberlain then went to say that the land proposals, although they had been modified since he had left the Senate, would not be sufficient for the benefit of the Indians.

Special Notice.

HERALD notices of companies, societies, churches, etc., will only be inserted in the HERALD as paid advertisements. We do not place of worship a gratuitous directory which will appear in the Sunday morning.

The HERALD is connected with the telephone system of Los Angeles city and county. Orders for advertisements or job work may be sent through this medium to which will appear.

The HERALD is the official paper of the city of Los Angeles. The city calling list of names and all other municipal notices appear in its columns.

Mr. R. N. Howe is the Santa Ana agent of the HERALD.

It is understood in Washington that Mr. Manning will shortly resign his position as Secretary of the Treasury of the United States and will soon thereafter be appointed Minister to Austria. Our esteemed San Francisco contemporary, the Evening Post, thinks that, in view of the Hapsburgh insult to the United States, in the person of Mr. Kelley and his Jewish wife, there should be no American Minister appointed to the Vienna court. We agree with the Post in this, see our contemporary and go one better. The United States ought to appoint a minister to no European court. Ambassadors Extraordinary and Ministers Plenipotentiary are traditions of monarchy. They are out of place in a Republic. They are the fifth wheel to a wagon. The whole un-republican execrations on our body politic ought to be hopped off at once and forever. A consular agent in the principal cities of the world is all that ought to be needed in any intelligent democratic-republican scheme of intercourse with the outside world.

The second ostrich farm of Los Angeles county will be fairly inaugurated in a few days on the Los Feliz ranch. Dr. J. C. Sketchley has arrived from Africa with thirty-six fine birds, pairs of which were sold within the past two years for \$2200. He started with sixty-five ostriches; but, owing to the prohibition of the exportation of ostriches, a line of action which has been adopted by the jealous authorities at Capetown, he was obliged to transport his birds a thousand miles down the coast, and to ship them from Natal. From this port the voyage proved very rough, and between Natal and the bearings of Capetown the whole twenty-nine birds were lost. The Doctor had chartered a vessel and arrived at Galveston with his valuable cargo on the 30th of March. Here he rested them for a few days, and this morning they will be transferred from Sepulveda station to the Los Feliz ranch. He has also brought with him one of the most accomplished gardeners of England, and he will have his new ostrich farm laid out with great elaboration and completeness. The new ostrich farm can not fail to be a great res to Angeles. It will be within easy reach of this city, and the progress of this novel branch of industry will be watched with great curiosity. The first farm has proved a great success.

MANNING, the San Francisco oysterman, has just returned from a visit to Florida. His disgust at this sham land of flowers and citrus fruits is extreme, and he has imparted it to a reporter of the San Francisco Chronicle. According to this famous caterer, Florida is to-day the dreariest region on the footstool. Taking the country rough and smooth, Mr. Manning says that the Mojave Desert is a paradise compared to it. The very leaves of the orange trees, in the limited regions where there are any orange trees, hang black and limp from the boughs, while these golden looks of the modern Hesperides look like spheres of charcoal. There is beginning to be a pretty widely diffused idea over the length and breadth of the United States that Florida is a solemn and pretentious fraud, and Mr. Manning is really re-echoing the voice of the New York Herald, which, about six weeks ago, sent a special commissioner down to Florida to explode the bubble. On the other hand, the principal editor of the Herald, Mr. Charles Nordhoff, has written a book in which he gave an enthusiastic and just tribute to Southern California, not one word of which he has ever had occasion to modify or retract. The two regions are as different as day and night, and this fact will soon be universally realized, to the infinite benefit of Southern California.

CAREFUL investigation develops the fact that the late rains did not injure whatever to the crops of Los Angeles county. In fact, they have brought out a great deal of the late-sown wheat and barley which would otherwise have been in a doubtful state. Here and there, at intervals of a week or two, a little grain has lodged; but the mild weather succeeding the storm has had the effect of restoring it to its former state. Any one who desires to make an intelligent estimate of the cereal yield of Los Angeles county during the coming year would do well to remember that fully twenty per cent, more land has been sown to wheat and barley this year than last, and that the indications as to yield are immeasurably greater. Last year Los Angeles county made more wine and brandy than any other county in the State. We are tempted to think that this year we shall also be the premier grain producer. There is no question but that at least one hundred and sixty thousand acres of land have been divided here between the two leading cereals, and it is equally certain that at least thirty bushels to the acre is a fair average if the present condition of things agriculturally holds good. In view of the fact that we have already shipped twelve hundred car-loads of oranges to the East and to San Francisco, and that at least three hundred car-loads remain to be shipped, the great prosperity of this section is not so doubtful a problem as it would seem to be to those who do not know the value and variety of our products. A region which depends simply upon wheat and barley and potatoes for its prosperity need not wonder when a highly endowed section like Los Angeles shoots ahead of it with the rapidity of lightning, greased at that. In addition to her corn, wine and oil, the An-

geles county also produces fully half of all the corn grown in the State of California. A county so blessed by multiflora production cannot well fail to astonish its most devoted friends by the rapid and steady growth which will signalize each coming year far more emphatically than it had done the preceding ones.

UNNECESSARY VIOLENCE.

For which outraged nature exacts heavy penalties, is done to the body by persons, some of whom are not even aware of their constitution. Conspiration is not one of those desperate diseases that require desperate remedies. It is the incomplete discharge of a function, to the health of which will be remedied by the removal of the cause.

A consular agent in the principal cities of the world is all that ought to be needed in any intelligent democratic-republican scheme of intercourse with the outside world.

THE HERALD is connected with the telephone system of Los Angeles city and county. Orders for advertisements or job work may be sent through this medium to which will appear.

The HERALD is the official paper of the city of Los Angeles. The city calling list of names and all other municipal notices appear in its columns.

Mr. R. N. Howe is the Santa Ana agent of the HERALD.

It is understood in Washington that Mr. Manning will shortly resign his position as Secretary of the Treasury of the United States and will soon thereafter be appointed Minister to Austria. Our esteemed San Francisco contemporary, the Evening Post, thinks that, in view of the Hapsburgh insult to the United States, in the person of Mr. Kelley and his Jewish wife, there should be no American Minister appointed to the Vienna court. We agree with the Post in this, see our contemporary and go one better. The United States ought to appoint a minister to no European court. Ambassadors Extraordinary and Ministers Plenipotentiary are traditions of monarchy. They are out of place in a Republic. They are the fifth wheel to a wagon. The whole un-republican execrations on our body politic ought to be hopped off at once and forever. A consular agent in the principal cities of the world is all that ought to be needed in any intelligent democratic-republican scheme of intercourse with the outside world.
